## PROFILE

I'm a Full Stack Developer with one year of experience. I enjoy building websites and applications that work smoothly. I'm skilled in React.js, MongoDB, Express.js, Node.js, HTML, CSS, and JavaScript. I create user-friendly designs using React.js and make sure they look great on all devices. On the technical side, I use Node.js and Express.js to manage data and build the behind-the-scenes part of websites. I like working with others, solving problems, and writing clean code. I always keep learning about new trends in the industry to improve my skills. I'm excited to take on new challenges as a Full Stack Developer and contribute to making cool digital stuff!
